

For this assignment, our group decided to split the implementation into three main parts: game server, account server, and word server.

For each primary server, three of us decided to split the tasks equally by giving each part to a member.

Here's the breakdown of the contribution of our team members:

Task tracker			
 Assignee	Implementation Task	Part	 Status
Stanley Chow	Word_UDP_server.java Word.java Request_UDP_Game_2_Word.java	Word Operation	Completed ▾
Khanh Le	Account.java EncryptionUtils.java AccountServer.java ClientHandler.java	User Account Operation	Completed ▾
Iyan Velji	IndirectionServer.java IndirectionClientHandler.java GameServer.java Client.java AccountClient.java	Game Server Operation	Completed ▾
